Answer two questions

Use a separate answer book for this section.

1. Examine how both changing domestic policy and changes in the world economy have helped to transform the Australian economy in recent decades.
2. Despite developments in industry and services in postwar Australia, the mining industry still plays a significant role in the economy. Discuss.
3. Explain how Australia has gradually begun to come to terms with the realities of its regional context.
4. Examine the key role which immigration has played in the shaping of Australian society.
5. To what extent has Australia succeeded in becoming a multicultural society?
6. Immigration is a key dimension of the social geography of Sydney. Explain.
