2. Aistrigh an sliocht seo a leanas go Gaeilge:

I would love to spend a year on holidays in Australia. My two brothers went there last year after they finished their science degree in university. Having decided that they needed a long break before becoming part of the Celtic Tiger economy, it took them no more than two minutes to make up their minds that they wished to visit a country with a nice climate. I hear that the sun shines there almost all year round and that you can even eat your Christmas turkey on the beach. Imagine that! I can picture myself already on Christmas Day having an early morning swim on a beautiful sandy beach, playing football under a hot sun, cooling down again in the beautiful clear water, and after all that hard work sitting down to a big feast. It will be a long way from the rain and the wind in Galway. All I need to do now is to make sure that I pass my exams.
