SEMESTER II EXAMINATIONS, 2000-2001

SECOND EXAMINATION IN ARTS
Special Repeat Paper

GEOGRAPHY

TA 256 Climate Change

Weight; 2.5 ECTS

Professor R. Dodgshon
Professor M. Ó Cinnéide
Professor U. Strohmayer

Time allowed: 1.5 hours

Answer two questions

1. Outline and explain the principal features of the climate of the Pleistocene.
2. Assess the threat of global warming.
3. Examine the impacts of urbanisation on climate.
4. Give an illustrated explanatory account of El Nino and briefly discuss its climatic significance at the global scale.
