1. CUIR GÀIDHLIG AR AN SLIOCHT SEO: (30 MARC)

She dreamt that she and Ronald Steward would get married and she would no longer be on her own. She would move into his flat, which was much bigger than her own. Maybe some day Ronald would become famous and she would travel with him all over the world. But she didn't think that he would become famous, not like Catherine Cookson. Still she would not be alone. Loneliness was a disease, worse than a disease, it was like living death. Maybe she ought to go to church, but she didn't want to do that. The church hadn't helped her when Alex died. No one had helped her, noone.
