| No. of Pages  | 2                          |
| Department(s) | Centre for Nursing Studies |

1. Critically evaluate the development of the Psychiatric Nurse's role over the past 20 years.
2. Outline and discuss how Egan's Counselling framework may be used by the nurse in therapy/counselling sessions with clients.
3. Write notes on three of the following:
  - a) Group Therapy
  - b) Psychoanalysis
  - c) Milieu Therapy
  - d) Electro-Convulsive Therapy
  - e) Selective Serotonin Re-uptake inhibitors
4. Discuss the merits and demerits of using Cognitive Therapy in the treatment of a client with Generalised Anxiety.
5. Identify and Discuss three counselling skills the nurse may use in his/her dealings with a client who is depressed.
