2. Aistrigh an sliocht seo a leanas go Gaeilge:

I really like the new computer game that you bought during your holidays in England. I could spend all day sitting in front of the screen playing it. The thing I most like about it is that you must use your own mind and power of thought in order to play it. I do not like games that are based on killing your enemies because there is too much violence in the world we live in. I will sit down with my children during the long winter nights and we will learn the rules of the game together. Of course, the young ones will be much better than me at this because the new technology does not frighten them. Indeed, if I were young again the first thing I would do would be to buy a computer for myself and then I would be as modern as everyone else.
